1) Simats hospital

The screenshot shows the SIMATS Hospital Patient Information System interface. The top navigation bar includes the SIMATS Hospital logo, a SaaS Demo status, and a tenant identifier 'simats-hospital-main'. The left sidebar contains a 'WARD CONSOLE' with links to 'Patient Records', 'Appointments', 'Billing', and 'Tenant Settings'. A '0 Patients registered this session' badge is visible. The main content area is titled 'Patient Records' and includes a description: 'Register admissions and look up patient details across departments.' The 'New Patient Registration' form is divided into three sections: 'PATIENT DETAILS' (with fields for Patient name, Age, Address, Phone, and Email), 'ATTENDER (NEXT OF KIN)' (with fields for Attender name and Attender phone), and 'CLINICAL DETAILS' (with fields for Doctor assigned and Status). The 'Registered Patients' section on the right shows a search bar and a message: 'No patients registered yet. Add the first record using the form.'

The screenshot shows the SIMATS Hospital Patient Information System interface after one patient has been registered. The '0 Patients registered this session' badge has been updated to '1 Patients registered this session'. The 'Registered Patients' section now displays a list of one patient: 'priya - 45 yrs' with a 'Stable' status. The patient's details are: '9874659879', 'Dr. Meena Raghavan - Orthopedics', 'Attender: kumaresan (4569889456)', and 'Diagnosis: cancer'. The 'New Patient Registration' form remains visible on the left.

2) Online supermarket ordering

The screenshot shows the CloudMart Online Supermarket interface. The top navigation bar includes the CloudMart logo, the text 'ONLINE SUPERMARKET ORDERING', and a status bar indicating 'SaaS Demo - Multi-tenant instance - Region: ap-south-1 - Autosaved to browser storage'. The left sidebar contains a 'STORE CONSOLE' with links to 'Customer Orders', 'Inventory', 'Delivery Slots', and 'Store Settings'. Below this is an 'ITEM CLASSIFICATION' section with a list of categories: Groceries (0), Fruits & Vegetables (0), Dairy & Bakery (0), Beverages (0), Household (0), and Personal Care (0). The main content area is titled 'Customer Orders' and includes a subtitle 'Capture customer details and cart items, classified by department.' and a tenant identifier 'tenant: cloudmart-chennai-01'. The 'New Order' form is the central focus, containing sections for 'CUSTOMER DETAILS' (Customer name, Phone, Delivery address, Email) and 'ITEM CLASSIFICATION FORM' (Item name, Category, and a quantity input). A 'Place order' button is at the bottom of the form. To the right, a 'Recent Orders' section shows a search bar and a message: 'No orders placed yet. Add the first order using the form.'

This screenshot shows the same CloudMart Online Supermarket interface, but with a recent order added to the 'Recent Orders' section. The 'New Order' form remains the same. The 'Recent Orders' section now displays a search bar and a list of orders. The first order is for 'rice (Groceries)' with a quantity of 'x1'. The 'Total items' is shown as '1'. The 'ITEM CLASSIFICATION' section on the left now shows 'Groceries' with a count of '1'. The footer of the page contains the text: 'CloudMart-SaaS - Cloud commerce demo instance - Data persists locally in this browser session (localStorage) to simulate a hosted multi-tenant database.'
